Can you transport your foster pet to the vet?

Please tell us of your experience (if any) caring for animals.

What would you like to accomplish as a foster carer? What are your expectations?

COMMITMENT SUITABILITY

- I understand that FFARQ Inc is a charity operating on volunteer time and utilising donations to pay vet fees, which are frequently higher than the income derived from adoption fees.
- I understand that if I purchase vet-approved flea and worm control medications or any veterinary diet or voluntarily pay for any FF-arranged vet visits for my foster pet I can send the receipt to treasurer@ffarq.com.au with my request for a donation receipt which may be tax deductible.
- I understand that my team leader at FFARQ Inc organises and pays for veterinary consultations and I must liaise with my team leader if I think my foster pet needs a vet consult.
- I agree to a Furry Friends volunteer visiting my home for an informal chat and

to check for potential hazards.

- I agree to keep my foster cats indoors or in a safe enclosure at all times. I understand that FFARQ Inc cats are 100% indoor cats.
- I understand that cats must be introduced slowly over time and I'm able to separate my foster cats from my own pets.
- I agree to follow up conversations with adopters to help my foster pet settle into a new home.
- I understand that FFARQ Inc sometimes receives donations of food, medications, litter trays, litter and other supplies which volunteers distribute among carers, prioritising multi-pet carers, however there's no guarantee that FFARQ can supply all meds or pet supplies on an ongoing basis.
- have/will get these supplies for each foster cat prior to arrival. (Your team

leader might be able to provide some items from donations if assistance is needed).

- Separate litter tray
- Adequate litter
- Recommended dry and wet foods
- Food and water bowls
- Bedding (washed regularly)
- Approved flea and worm treatments
- I am responsible for ensuring I have no more than the council regulated number of pets for my property
